Tel :206-363-0987, 206-299-4225(fax), E-mail : AGTI@comcast.net

Even in the modern warfare, conventional troop mobility and logistics supports are vital concerns for the military. Paratrooping still remains as a most cost effective method. AGT International has been supplying material for parachute manufacturing and whole range of airdrop gears with unique expertise since 1992.

AGT International carries over 200 MIL Specification products. We carry large inventory in order to meet short notice demands of the international market. The soft goods we offer are made of fabric, webbing, threads and netting. These are made of high quality Nylon 66 and cotton. Every batch is laboratory tested to ensure MIL Spec compliance. Forged metal links are all made in the U.S.A.

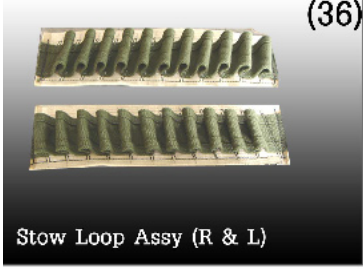

Do not despair when you hear the lead time for the material you need is unreasonably long. Check with AGT International of Washington U.S.A. You will find a pleasant surprise. Quality and timely delivery is what we are known for since 1992.
